**Authorization:** This fund is authorized in Austria.

**Date of production of the Key Information Document:** June 17, 2024

## What is this product?

**Type:** This fund is a UCITS investment fund (undertakings for collective investment in transferable securities). This fund complies with European Directive 2009/65/EC.

**Term:** The fund has no fixed term, it was established for an indefinite duration. The recommended holding period is 8 years. LLB Invest Kapitalanlagegesellschaft m.b.H. may decide to cancel the fund. This applies in particular where significant changes of actual conditions occur which would justify a cancellation.

**Objectives:** Within the scope of the fund’s management, at least 51% of the fund’s volume is invested in assets with environmental/social characteristics. Sustineri Global Leaders (R) (“investment fund”, “fund”) seeks to achieve continuous long-term income subject to a corresponding level of risk. The investment fund may invest up to 100% of the fund assets in equities, up to 49% in debt securities, in money market instruments and in demand deposits (and callable deposits) and/or up to 10% of the fund assets in other funds. The investment fund mainly – i.e. for not less than 51% of the assets of the fund – purchases listed equities in the form of directly purchased individual securities – i.e. not indirectly through investment funds or derivative instruments – whose issuers have been classified as sustainable on the basis of so-called ESG criteria (Environmental, Social, Governance). These equities must fulfill certain minimum standards in relation to protection of the environment, social issues and good corporate governance. Derivative instruments may be used as part of the investment strategy and for hedging.

This fund was launched in Austria. Information on any paying agents and distributors may be found in Part II, Item 19 of the prospectus, and in the Annex. For distribution licenses in non-German-speaking countries, you will find this information in English or the respective national language at [www.llbinvest.at](http://www.llbinvest.at), and you may obtain it from any paying agent or distributor. The external manager is Advisory Invest GmbH, Vienna. The fund’s custodian bank (depository) is Liechtensteinische Landesbank (Österreich) AG.

For the unit certificate class AT0000A2UXP4 (T), income will be retained within the fund and will increase the value of the units.

**Intended retail investor:** This fund is suitable for investors with an investment objective of long-term capital growth and an investment horizon of at least 8 years, who have no or little knowledge and/or experience with financial products and who are able to bear financial losses in order to achieve their investment objective, and who place no value on capital protection.

**Further information:** In principle, investors may request redemption of the units from the management company on any Austrian banking day (except for Good Friday and New Year’s Eve). However, the management company may suspend redemption of the units, in consideration of the investors’ interests, if extraordinary circumstances indicate this to be necessary. Taxation of income or capital gains resulting from the fund will depend on the investor’s tax situation and/or the place where the capital is invested. Professional advice should be sought in case of any open questions.

## What are the risks and what could I get in return?

### Risk indicator

← Lower risk

Higher risk →

1	2	3	4	5	6	7
---	---	---	---	---	---	---

**The risk indicator assumes you keep the product for 8 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium-low level. In poor market conditions, defaulted investments could negatively impact the fund's performance. The fund uses active derivatives, which increase the risk. Furthermore, there are other risks which are not included in the risk indicator. For detailed information, please refer to Part II, Item 16 of the prospectus. This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavorable, moderate, and favorable scenarios shown are illustrations using the worst, average, and best performance of the product (or a suitable benchmark/proxy) over the last 13 years. Markets could develop very differently in the future.

Recommended holding period: 10 years Example investment: EUR 10,000		If you exit after 1 year	If you exit after 8 years
<b>Scenarios</b>			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress <sup>1)</sup>	What you might get back after costs	EUR 5,850	EUR 3,490
	Average return each year	-41.5%	-12.3%
Unfavorable <sup>2)</sup>	What you might get back after costs	EUR 8,290	EUR 10,120
	Average return each year	-17.2%	0.1%
Moderate <sup>3)</sup>	What you might get back after costs	EUR 10,750	EUR 19,810
	Average return each year	7.4%	8.9%
Favorable <sup>4)</sup>	What you might get back after costs	EUR 13,770	EUR 23,740
	Average return each year	37.6%	11.4%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. <sup>1)</sup> The stress scenario shows what you might get back in extreme market circumstances. <sup>2)</sup> This type of scenario occurred for an investment in the fund (or in a suitable benchmark/proxy) between December 2021 - May 2024. <sup>3)</sup> This type of scenario occurred for an investment in the fund (or in a suitable benchmark/proxy) between April 2016 - April 2024. <sup>4)</sup> This type of scenario occurred for an investment in the fund (or in a suitable benchmark/proxy) between September 2011 - September 2019.

## What happens if LLB Invest Kapitalanlagegesellschaft m.b.H. is unable to pay out?

The fund is a special asset. You are not subject to the risk of insolvency, meaning a debt overload or the inability to pay on the part of LLB Invest Kapitalanlagegesellschaft m.b.H. The unitholders are co-owners of the fund's assets. The fund is not subject to any legal or other deposit protection.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 8 years
Total costs	EUR 488	EUR 3,712
Annual cost impact <sup>1)</sup>	4.9%	2.4%

<sup>1)</sup> This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 11.3% before costs and 8.9% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. These figures include the maximum distribution fee that the person selling you the product may charge (3% subscription fee corresponds to 2.91% of the gross investment amount/EUR 292). This person will inform you of the actual distribution fee.

### Composition of costs

<b>Ongoing costs</b>		
<b>Management fees and other administrative or operating costs</b>	1.84% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 184
<b>Transaction costs</b>	0.12% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy or sell.	EUR 13
<b>Incidental costs taken under specific conditions</b>		
<b>Performance fees</b>	No performance fees (variable remuneration, performance-related fees) will be charged.	EUR 0

## How long should I hold it and can I take money out early?

### **Recommended holding period: 8 years**

The fund has no minimum holding period, but it is designed for medium to long-term investment. You should therefore be prepared to remain invested for at least 8 years. However, you can redeem your investment on any Austrian banking day (except for Good Friday and New Year's Eve), subject to the above-mentioned exit costs and without any penalty. The recommended holding period is chosen to keep the probability of nominal losses for investors (unit holders) during this investment horizon as low as possible. However, losses cannot be excluded.
